

WHATS THE HACK

Theme: App Development

TEAM EXCELSIOR

- 1. REVANTH DAMISETTY: CB.EN.U4CCE20013**
- 2. KARTHIKEYAN SARAVANAN:**
CB.EN.U4CCE20026
- 3. SIVA DHANUSH KOSURI: CB.EN.U4CCE20057**

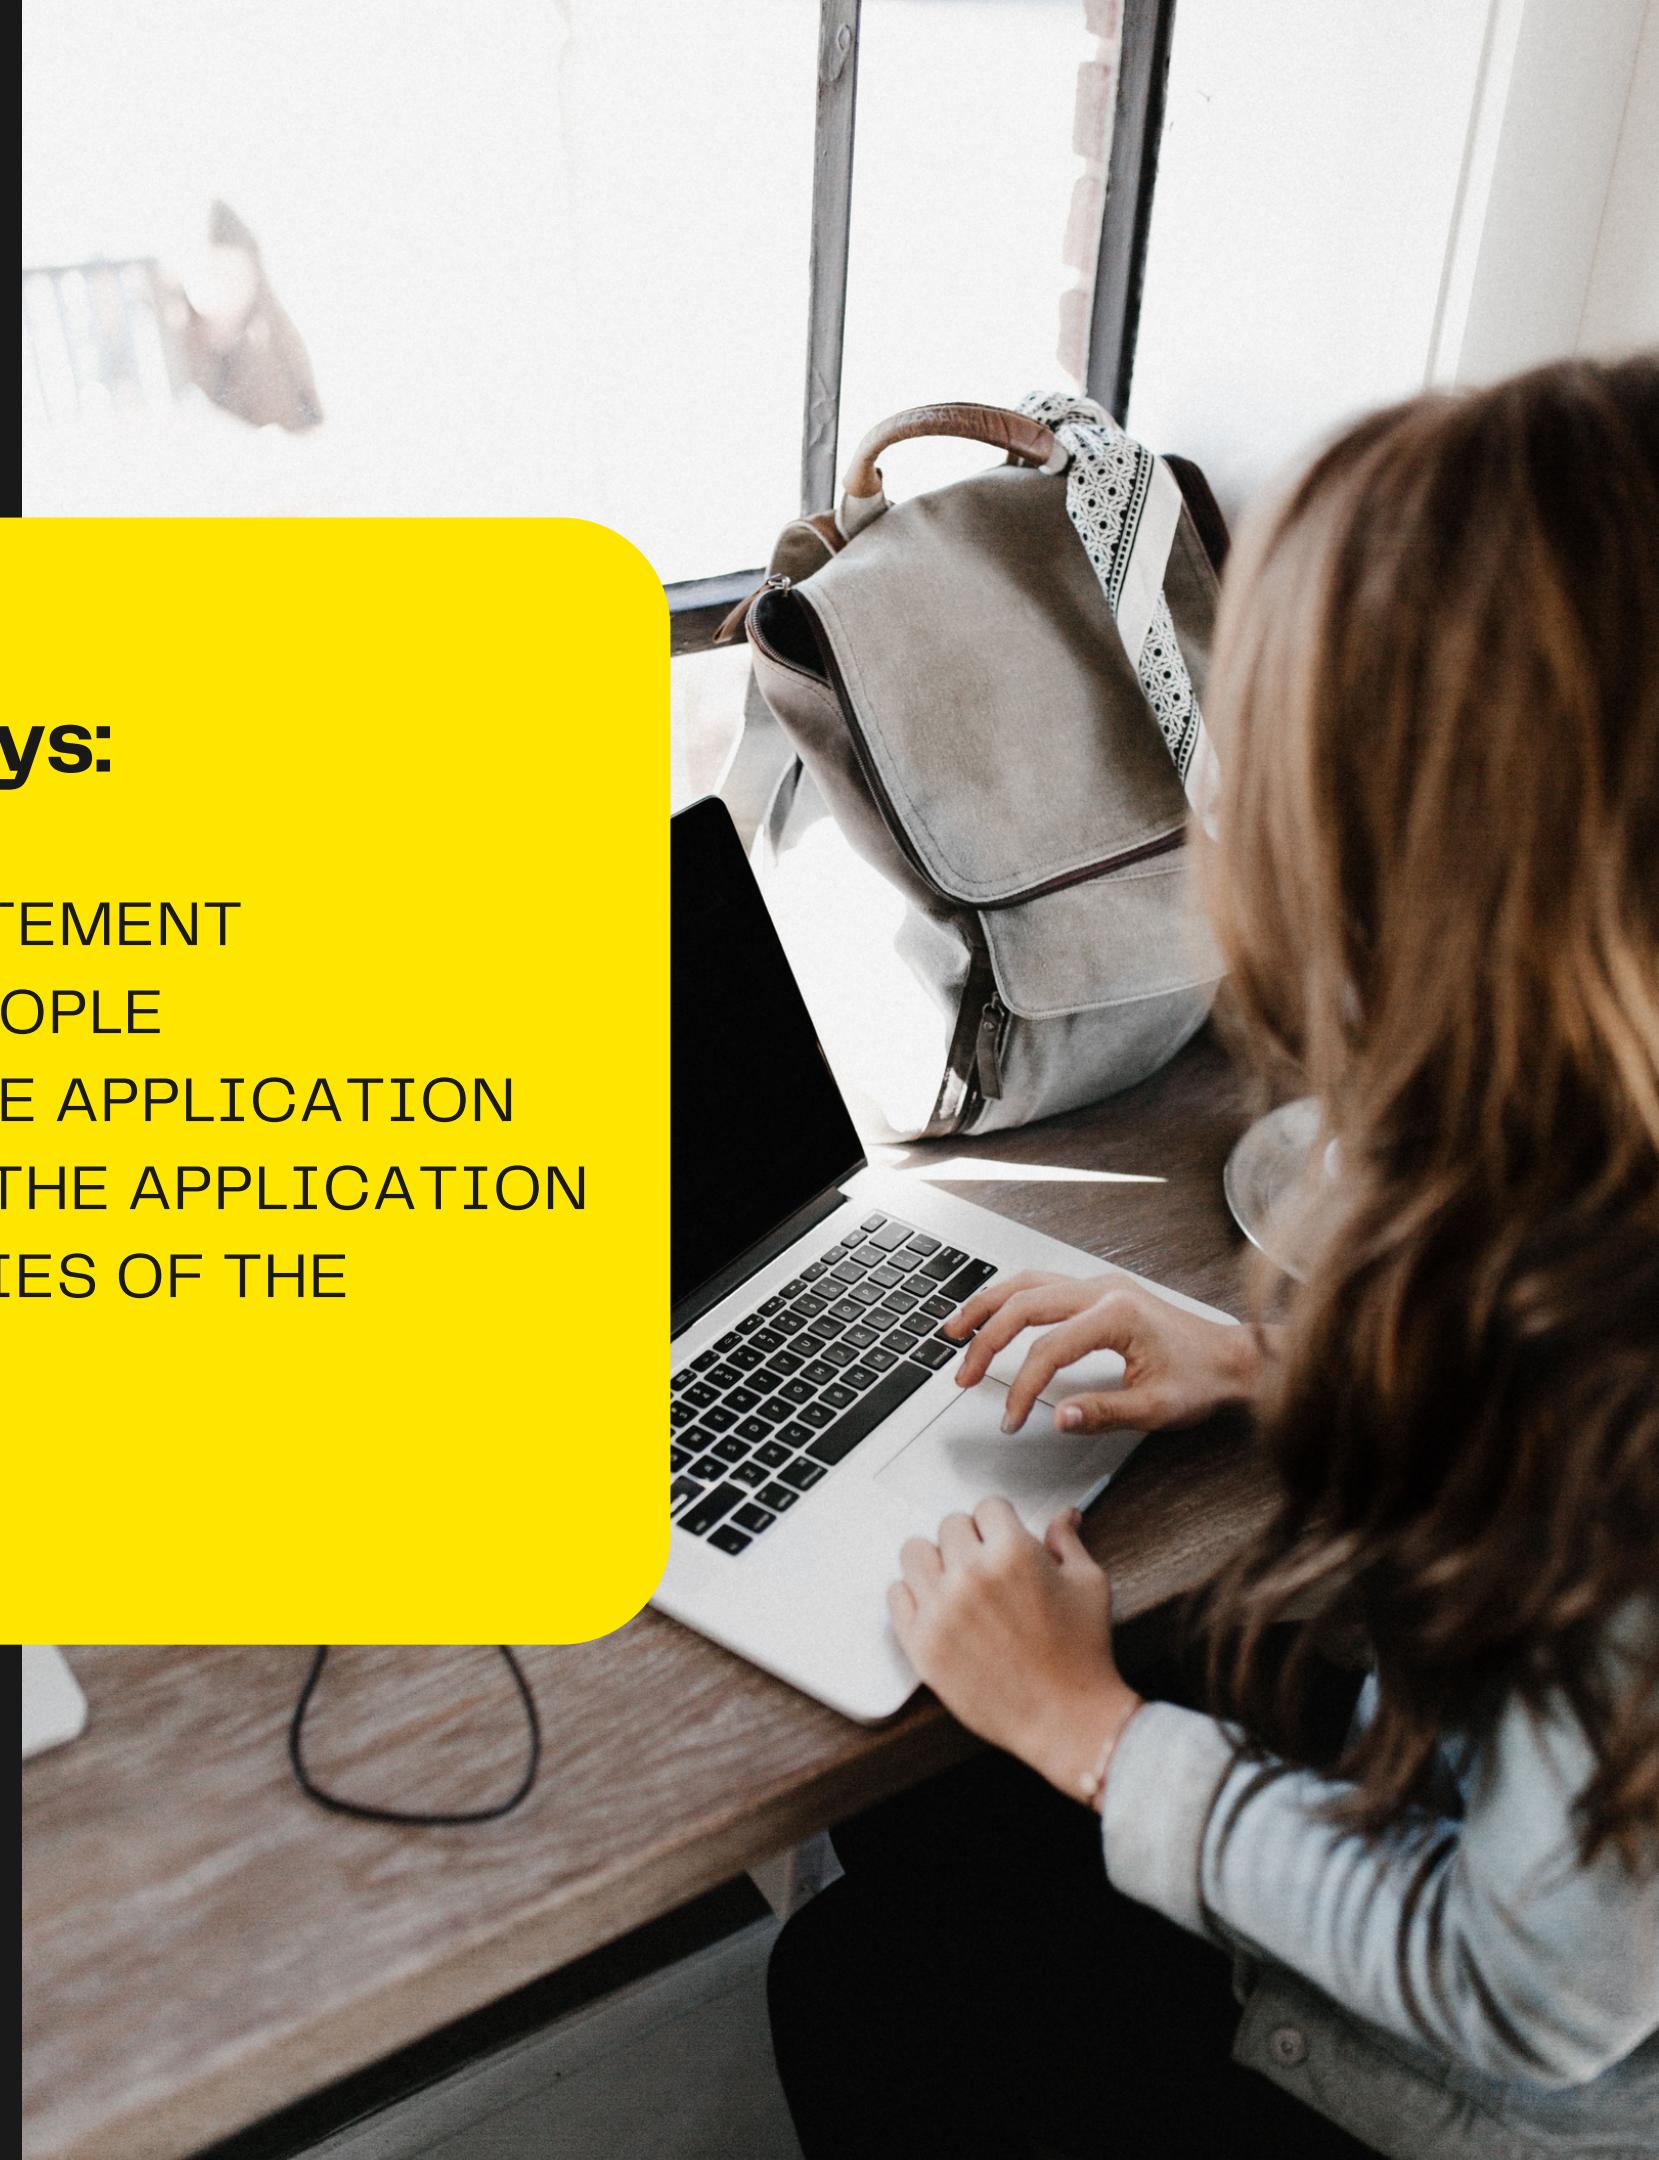

Things to discuss

Key takeaways:

- PROBLEM STATEMENT
- IMPACT ON PEOPLE
- UNVEILING THE APPLICATION
- FEATURES OF THE APPLICATION
- TECHNICALITIES OF THE APPLICATION

A PROBLEM TO SOLVE

1. DURING THESE PANDEMIC TIMES, STUDENTS FACE CHALLENGES TO CONNECT AND COMMUNICATE WITH FELLOW STUDENTS.
2. IT'S ALSO VERY DIFFICULT TO FOLLOW CLUB EVENTS THAT TAKE PLACE IN THE UNIVERSITY.
3. THIS DETERIORATES THE AVAILABLE OPPORTUNITIES PROVIDED BY THE UNIVERSITY TO BUILD THE BEST SET OF SKILLS.
4. THE TRANSACTIONS WITHIN THE CAMPUS NEEDS MORE SECURE PAYMENT GATEWAYS.

IMPACTING STUDENTS LIFE

- Connecting people is always a good thing.**
- Integrating announcements and event details gives a better scope of practical and technical learning to students.**
- Payments for events can be made very easy with a single wallet.**
- These features leads to a better college experience.**

INTRODUCING

ASConnect.

**Event
Synchronization**

Chat with Friends

**Pay effortlessly in
the Campus**

It serves a variety of purposes to sync the events held across the campus and host them in an efficient manner

The ASConnect connects people using the in-built messenger in it to communicate with students across the campus

Pay using the AmritaWallet from ASConnect seamlessly for the events and to purchase merchandise.

Features of ASConnect. →

User Panel

- Event Calendar
- Event Networking
- Event Certificates and Feedbacks
- Event Merchandise
- Instant Networking
- Project Recruitments
- Club Recruitments
- Booking E-Tickets and using payment gateway as **AmritaWallet**

Admin Panel

- Addition of Committee Members.
- Choose Committee Members to be admins.
- Add Bank Account to receive E-Ticket Sales.
- Initiate Push Notifications
- Create events on socials, raffles, lectures, sports, technical fests and more.
- Display the booking lists and attendee guests lists for the event
- Handle Inventory of Event Merchandise with required logistics

Technicalities

Take advantage
of the tools available.

Android Studio: IDE Google Android OS

Programming Language: Kotlin

Hybrid Model: Functions both for
Android and iOS.

Developer Team

The team to help you stand out
